

SYMMETRY NAME ART

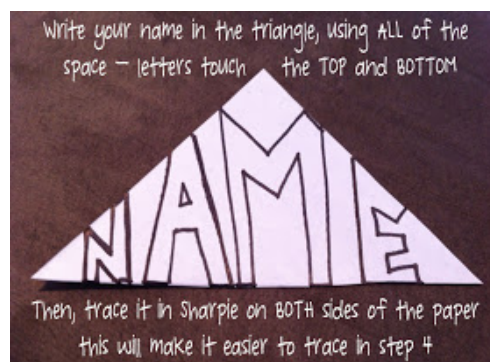

Here's the step by step. Use an 8 1/2 x 11 paper, and fold it into a square. Trim off the exposed edge:

Fold another paper, doing the same thing as the first two steps. This one becomes your guide from which you will trace your name onto the "real" paper:

Write your name on the triangle - use ALL of the space with letters touching the top and bottom:

Then, decide what letter will be in the middle, and trace the name (use pencil first) flipping the triangle over as you go to make sure the same letter is in the center.

Then, color it all in!
